

NEW INDIAN SCHOOL, MANGAF - KUWAIT

Circular: PC/150/23

Date: 1.06.2023

Dear Parents,

Hearty appreciation to all of you who attended the PTM on Thursday, 25th May. We are happy to address a few of your concerns / suggestions found in the **Suggestion Box**.

Increase the break time

Yes, we can increase the **first break** by 5 minutes from the month of August. Also please be assured that in the lower classes if the children do not finish the break-fast within the allotted time, we give them extra time to finish it (L.K.G to GRADE II).

Reduce the school bag weight

We have heard this suggestion in every PTM. We can't do much about this. We request the parents to regularly monitor the school bag of their children and remove unnecessary books from the bag. Secondly, teachers are instructed to inform the parents clearly about the exact books to be brought to the school and not all the books. Thirdly, to make it little more easy we will change the Time-Table of grade I and 2 so that they can study only a limited subject per day and carry only a limited book in their bag. (but this will make only a small difference)

Class photographs must be taken every year

Yes, it will be done.

Reduce the student strength in Arabic class

Yes, it will be done from the next term onwards. (from August)

Language education needs to be improved

A detailed meeting has been called by the Principal regarding this matter with the second and third language teachers. Hopefully there will not be any such problems in future. If you are still not satisfied those parents have to meet the principal personally with more specific details regarding this.

Communication about the Home work at the right time

We assure you that the communication regarding "Home Work" will reach the parents before 4:00pm.

Communication with the subject teachers

Yes, it will be done. All the subject teachers will be added in the class group, so that parents will have access not only to the class teacher but also to subject teachers. Subject teachers will also be able to communicate with the parents quickly without depending on the class teacher.

Toilet doors getting jammed

It will be repaired in the summer break.

Behavioral issues of the children

Suitable action will be taken at **the right time**. We believe in correcting the behavior of the children and not in punishing them by sending out of the school. However, if the behavior of a particular student is highly damaging we never hesitate to take prompt action. **Discipline is the topmost priority for us.**

Suggestions ignored: Sorry, we can't do much about the following suggestions

- School uniform not good for Kuwait weather
- Reduce the school fees
- Washrooms not kept clean (**not true**)
- Stop co-education after 6th standard
- Academic calendar should match with the Kuwaiti calendar
- P.E uniform neck too big
- Use ink pen on the certificate

We are always open for the feedback / suggestions from your end. Continuous improvement in the quality of education is our main motto. Let's work together for the better education and better future.

“Excellence is not a destination; it is a continuous journey that never ends”

Thanks and regards,

Anita Sadanand

Principal
